THE WILD GOOSE.

Altho' a trackless depth that curves
In God's majestic lines,
We wing a course that never swerves
For man or man's designs.
No need have we for chart by day,
Or compass rule by night—
A Mind that made us gives us way,
And guides our steady flight.

The buildings of a million hands
Lift growing far below;
Created at proud man's commands,
Whose lust, as well we know,
Is his the earth. He ours the blue
That veils celestial;
From whose breath our pilgrims true
His sprawling home we see.

Be ours a frozen South and North
Unmanned by tread or word,
Where might of mildness issues forth,
Nor human voice is heard.
And ours the secrets of the green
That cloaks the wide morass,
Where "neath a tropic sun we peer,
Mid wastes of sodgy grass.

From zone to zone, from goal to goal,
Within a day we fly,
Our limits stretch from pole to pole—
Our path the boundless sky.
And when to quit your appetites
We yield our bodies, slain,
Know well we've seen a thousand sights
For which you long in vain.

CHAPTER XVIII.—CONTINUED.

Again the blood rose guiltily to Billy's cheek. Not yet had he made his peace with his conscience and that valued counselor and invaluable friend from whose good graces he seemed to have fallen entirely. Not once had opportunity been afforded in which to speak and open his heart to him. As for writing, that seemed impossible. Billy could handle almost any implement better than a pen. But even in the few minutes left him in which to think he knew that now at least he must "face the music," like the man his father would have him be, even though it took more nerve than did that perilous dash on the Tagal works that Sunday morning. Billy would rather do that twice over than have to face Armstrong's stern, searching eyes, and hear again the cold, almost contemptuous tone in which the colonel said to him the day the doctor led his vanquished and hysterical charmer from the room: "Don't try to thank, pain; try to think what you risk—what you deserve to lose—for putting yourself in the power of such a woman."

From that day until this, here on the banks of the swift-running Pasig, they had not met at all; and it seemed to Billy as though Armstrong had aged a year. There was a lump in his throat as he went straight up to the colonel, his blue eyes never flinching, though they seemed to fill, and bravely spoke. "Col. Armstrong, I have an explanation that I owe to you. Will you give me a few minutes on the gallery?"

"Certainly, Gray," was the calm reply, and the youngster led the way.

It was a broken story. It told of his desperation and misery through Canker's persecution, of his severe illness, then of the utter weakness and prostration; then her coming, and with her comfort, peace, reassurance, gradual return to health, and with that gradual surrender to his nurse's fascinations. Then her demand upon him, her plea, her final insistence that he should prove his gratitude and devotion by getting for her those dangerous letters, and his weakness in letting her believe he could and would do so. That was the situation when they went on to Manila; and Armstrong knew the rest—knew that but for his timely aid she might have triumphed over his repentance; but Armstrong had come, had vanquished her and poor Larobe's last wishes were observed. The fateful packet containing the three letters that were most important was placed in his uncle's trembling hand.

"But how was it—what was it that so utterly crushed her?" asked Billy, when the colonel had once more extended his hand.

"The evidences of her own forgery, her own guilt," said Armstrong, gravely. "One was the order she wrote in excellent imitation of her husband's hand and signature, authorizing the changing of guard arrangements on the wharf the evening Stewart sailed. The other was a note in pencil, also purporting to come from him, directing old Keeney—remember the general's Irish order—to search for a packet of letters that had come by mail, and must be in the general's tent, either about his desk or overcoat, and to bring them at once to room number 30 and so at the palace. Of course, neither the general nor Garrison was there when he arrived with them; but she was, and with all her fascinations. She got the Irishman half drunk, and told him a piteous story and made him swear he'd never tell the general or anybody. If questioned he could plead he had gone out, and—got a little full with the boys." She gave him money—a big bit, too; and he got more than full. The very vehemence of his denials made me suspect him," said Armstrong; "but he was firm when examined. The general never required him to remain at the tent at night. He could go to town any evening he wished; and to cover his appearing at the Palace where the general long had a room, and where he was well known, he could say he was only in to have a word with one of the housemaids, and to give Mrs. Garrison a handkerchief one of the ladies must have dropped. But one thing she failed in—getting the letter back. Keeney had left it at camp in the pocket of his old blouse and

when he sobered up and all the questions were asked he hung onto it in case the truth came out, in order that he might save himself from punishment. But it broke him—he got to drinking oftener, and the general had to send him to his regiment; and then when he heard of Canker's charge against you, I saw the way to wring the truth out of him. He worshipped your father, as did every Irish dragoon that ever rode under him; and I told him you were to be brought to trial for the crime. Then he broke down and gave the truth—and her penciled order—to me."

In the silence that followed the soldier of 40 and the lad of only 21 sat looking gravely into each other's face. It was Armstrong who spoke again:

"Gray, it was mainly in you to tell me your story and your trouble. I could help you here; but—who can help you when you have to tell it—next time?"

"Next time?"—father, do you mean?" queried Gray, a puzzled look in his blue eyes. "I hadn't thought, do you know, to worry dear old dad—unless he asked."

Armstrong's grave face grew dark. "You ought to know what I mean, Gray. This story may come up when least you think for, and—would you have it told Miss Lawrence before she hears it from you?"

"Miss Lawrence," answered Billy, flushing, "isn't in the least interested."

"Do you mean that you are not—that you were not engaged to her?" The colonel had been gazing out over the swirling river; but now, with curious contraction of brows, with a strong light in his eyes, he had turned full on the young officer.

"Engaged to her! Do you suppose I could have been—been such an ass if she would have had me? No! She—she had too much sense."

It was full a minute before Armstrong spoke again. For a few seconds he sat motionless, gazing steadily into Gray's handsome, blushing face; then he turned once more and looked out over the Pasig and the scarred level of the rice fields beyond. And the long slant of the sunshine on distant towers and neighboring roofs and copse and wall, and the unlovely landscape seemed all tinged with purple haze and tipped with gold. The glare of a-bangle summoning the men to supper seemed softened by distance, or some new, strange intonation, and gave to the slightest of all our service calls the effect of soft, sweet melody; and there was sympathy and genuine feeling in the deep voice as he once again held out his hand to Billy.

"Forgive me, lad, for I judged you more harshly than you deserved."

One lovely summer-like evening some five weeks later, in long, heaving surges the deep blue waves of the Pacific came lazily rolling toward the palm-bordered beach at Waikiki, bursting into snowy foam on the pebbly strand, and softly hissing, swept like fleecy mantle up the slope of wet, hard-beaten sand, then broke, lapping and whirling, about the stone supports of the broad lanai of one of the many luxurious homes that dot the curving line of the bay to the east of Honolulu. Dimly outlined in the fairy moonlight, the shadowy mountains of the Waianae range lay low upon the western horizon. Eastward the bare, bold, volcanic upheaval of Diamond Head gleamed in bold relief, reflecting the silver rays. Here and there through the foliage shone the soft-colored fires of Chinese lanterns, and farther away, along the cone-shaped shore, distant electric lights twinkled like answering signals to the stars in the vault of blue, and the "riding lights" of the few transports or warships swinging at anchor on the tide.

From a little grove of palms close to the low sea wall came the soft tinkle of guitar, and now and then a burst of joyous song, while under the spreading roof of the broad portico, or lanai, and the murmur of voices, the occasional ripple of musical laughter, the floating haze of cigarette smoke, told where a party of worshippers were gathered, rejoicing in the loveliness of nature and the night.

It was a reunited party, too, and in the welcome of their winsome hostess, in the soft, soothing influence of that summer clime, and through the healing tonic of the long sea voyage, faces that had been saddened by deep anxiety and a few weeks gone smiled gladness into one another now. A tall gray-haired man reclined in an easy lounging chair, his eyes intent on the clear-cut face of a young soldier in trim white uniform, who, with much animation, was telling of an event in the recent campaign. By his side, her humid eyes following his every gesture, sat a tall, dark, stylish girl, whose hand from time to time crept forth to caress his—an evident case of sister worship. Close at hand another young fellow in spotless white, his curly head bent far forward, his elbows on his knees, his finger tips joining, was studying silently the effect of his comrade's story on another—a fair girl whose sweet face, serene and composed, was fully illumined by the silvery light of the unclouded moon. "Coming by transport, via Honolulu?" "Gov's" cabled message had brought father and sister to meet him at these famed "Cross-roads of the Pacific," and whither they journeyed Amy Lawrence, too, must go, said they; and, glad of opportunity to see the land of perennial bloom and sunshine, and wearied with long, long months of labor in the service of the Red Cross, the girl had willingly accepted their invitation. Coaled and provisioned, the transport had pushed on for the seven-day run for San Francisco; but the recovering of his long-lost son and the soft, reposeful atmosphere of the lovely yet isolated island group had so benefited Mr. Prime that in family council it had been decided wise for them to spend a week or ten days longer at the Royal Hawaiian; and the boys had found no difficulty in "holding over," for the Sedgwick, that followed swift upon the heels of their own ship. Five joyous days had

they together, and this, the fifth, had been spent in sightseeing beyond the lofty Pali of the northward side. The "O. & O." liner was coming in from Yokohama even as they drove away; and as they sat at dinner on the open lanai, long hours later, it had been mentioned by their host that the Sedgwick, too, had reached the harbor during the afternoon, and that army people were passengers on both liner and transport. Billy Gray, for one, began to wish that dinner was over. He was eager to get the latest news from the Philippines, and the Sedgwick left Manila full a week behind their slower craft.

"Did you hear who came with her?" he somewhat eagerly asked, "or on the Doric?" he continued, with less enthusiasm.

"I did not," was the answer—"that is, on the Sedgwick," and the gentleman halted lamely and glanced furtively and appealingly at his wife. There was that embarrassing, interrogative silence that makes one feel the futility of concealment. It was Miss Lawrence who quickly came to his relief and dispelled the strain on the situation.

"I should fancy very few army people would choose that roundabout way from Manila when they can come direct by transport, and have the ship to themselves."

"Well—er—yes; certainly, certainly," answered the helpless master of the house, dodging now the warning and reproach in the eyes of his wiser mate at the other end of the table. The crack of a coachman's whip and the swift beat of trotting hoofs on the gravelled road in front could be heard as he faltered on. The gleam of cab lights came floating through the northward shrubbery. "Except, of course, when they happen to be—er—already, well, you know, at Hong-Kong or Nagasaki," he lamely concluded.

There was an instant hurried glance exchanged between Gray and Prime. Then up spoke in silvery tone their hostess:

"Other officers, you know, are ordered home. We have just heard to-day that Col. Frost comes very soon. His health seems quite shattered. I believe—you know—of them—slightly that is to say, Miss Prime, did you not?" But even with her words she cast an anxious glance along the dim

"She had too much sense."

reach of the lanai, for the pit-a-pat of footfalls, the swish of feminine draperies was distinctly heard. Two dainty, white-robed forms came floating into view, and, with changing color, their hostess suddenly arose and stepped forward to meet them. Just one second of silence intervened, then, all grace and gladness, smiles and cordiality, both her little hands outstretched. Mrs. Frank Garrison came dancing into their midst, her sister more timidly following.

"Dear Mrs. Marsden, how perfectly"—kiss, kiss—"delicious! Yes, this is the baby sister I've raved to you about. We go right on with the Doric; but I had to bring her out with me that you might have just one glance at her. Why! Mr. Prime! Why, what could be more charming than to find you here? And 'Gov' too—your wicked boy! What won't I do to you for never telling me you were in Manila? And Mildred!—kiss, kiss—despite a palpable dodge and heightened color on the part of the half-dazed recipient. "And you, too, Miss Lawrence?" Both hands, but no kiss—one hand calmly accepted. "Ah, then I know how happy you are, Mr. Willie Gray!" beaming arched smiles upon that flushed and flustered young man. Then, turning again to twine a jeweled arm about the slim waist of their hostess, to whom she clung as though defying any effort to dislodge, yet pleading for protection. "Who on earth could have foretold that we of all people should have met out here—of all places? How long did you say you had been out here? A week? And of course, dear Mrs. Marsden has done everything to make it lovely for you. I should have died without her." And so the swift play of words went on, the rapid fire of her fluent tongue covering the movement of her allies and drowning all possibility of reply. It was an odd and trying moment. Mrs. Marsden, well knowing, as who in Honolulu did not, of Mrs. Frank's devotion to the young lieutenant, barely six months ago, was striving to welcome the shrinking little scare-faced thing that blindly and helplessly had drifted in the elder sister's wake. The introductions that followed, after the American fashion, were as perfunctory as well-bred women can permit. The greetings were almost solemn, smileless, and, on part of Nina, fluttering to the verge of a faint; and nothing but Willie's plucky and persistent support, and the light flow of airy chat and laughter, carried her through the ordeal. The two young soldiers stood stiffly back, red-faced and black-browed; the father, pallid and cold, could hardly force him-

self to unbend, yet his lips mumbled the name "Mrs. Frost," as he bowed at presentation; Miss Prime stood erect and trembling; Miss Lawrence, with brave eyes but heightened color, to leave at once was impossible; to remain was more than embarrassment. Most gallantly did they battle. Mrs. Marsden and Mrs. Frank, to lift the wet blanket from the group and relieve the strain. Reward came to crown their efforts in strange, unlooked-for fashion.

THE LITTLE MAN.

He Ticked a Crowd of Passengers on a Cable Car with His Bluffs.

The Gilbert avenue car was slowly sliding down Walnut street to Fifth one rainy evening lately. It was wet and soggy on the rear platform, where several men stood, as usual, thinking more of their cigars than the comfort of being inside the vehicle, and every man looked as irritable as he felt. Every few paces a wet umbrella would be swung around the guard, to be immediately followed by its owner, who, being a regular patron of the Gilbert avenue line, knew that if he got standing room on the car he must needs get in ahead of the crowd at Fifth and Walnut. Half way down the block one of those arrogant, authoritative individuals so often met with jabbed his umbrella against a little man just in front of him, and rudely bumped him as he scrambled up on the platform, growling about people being so slow, and asking the little man, with fine sarcasm, if he was paralyzed. "No, I ain't," said the small fellow, who was well dressed and apparently a gentleman, "but some one else will be in about a minute." He was getting red in the face as his indignation swelled, and glared savagely at the lordly one. "Don't go to jabbing me with your cheap umbrella, you big stiff, or I'll smash your face. I got out of your way as quick as I could."

The lordly one was plainly surprised, as well as bluffed, and hastily asked the other's pardon, not, perhaps, for his rudeness, but for underestimating the small man's spirit.

"Yes," said the little man, still glaring threateningly, "pardon—pardon. You're one of those big bluffers who insult people, and then when you're called you sneak behind excuses."

No more was said, but everybody looked admiringly at the little man and smiled contemptuously at the lordly one, whose arrogance had been transformed into two-spot humility.—Cincinnati Enquirer.

QUEER TITLE PAGE.

Whose Awful Author Adopted Affiliations Artificial, Amazing and Appropriate.

A book of extracts from various authors many years ago adopted a peculiar alphabetical and alliterative title page, on which the contents of the book were displayed in a most ingenious way. Every line began with a successive letter of the alphabet, upon which the whole line alliterated in a most extraordinary and grotesque fashion, as may be seen from these few examples culled from the mass:

Astonishing anthology from attractive authors.

Broken bits from bulky brains.

Choice chunks from Chance to Chancing.

Jewels of judgment and jets of jocularity.

Kindlings to keep from the king to the kitchen.

Magnificent morsels from mighty minds.

Numerous nuggets from notable noodles.

Prodigious points from powerful pens.

Quirks and quibbles from queer quarters.

Tremendous thoughts on thundering topics.

Wisp of wit in a wilderness of words.

Yawnings and yearnings for youthful Yankées.

Zeal and zest from Zoroaster to Zimmerman.—Cincinnati Enquirer.

Guided by Wisdom.

A public notice was given in Leamington, England, not long ago, which seemed to indicate that the parish of St. Paul's had some confidence in its own perspicacity as well as an unwavering trust in the wisdom of Providence. "A special prayer meeting will be held on Saturday next, at half past eleven o'clock, to entreat the Lord to give us a man of His own choosing for the pastor of St. Paul's. Such we believe the Rev. H. Linton, of Birkenhead, to be."—Youth's Companion.

Social Gravitation.

Returned Tourist—What became of that fool, Sapphead, who had more money than he knew what to do with? Business Man—I don't remember him. Was he much of a fool?

"Perfectly idiotic."

"I presume he has dropped into society."—N. Y. Weekly.

Nothing But Draw and Paint.

Visitor—I hear you've had the celebrated Mr. Abbey, the artist, staying with you down here.

Proprietor of Old-Fashioned Livery, Yes; and he he the laziest man I ever come across. He do nothing but draw and paint all day.—Phil May's Album.

An Explanation.

Mrs. Chicory—That detestable Mrs. Husham was boasting to-day about how long she keeps her boarders.

Mrs. Pruner—Oh, she keeps them so thin that they look longer than they really are.—Philadelphia Record.

No Change.

"What is your full name?" asked the census-taker.

"Eb'nezer Jagway," replied the man of the house. "But it's just same w'e I ain't full."—Chicago Tribune.

UNDER THE BAN.

Apostolic Delegate Martinelli Has Decided Against Catholics Belonging to the Maccabees.

Wabash, Ind., May 10.—Milo Meredith, of this city, grand commander of the Maccabees of Indiana, has been advised that the Catholic church has placed the order under the ban. Archbishop Martinelli, apostolic delegate, who has written a letter to the ordinary of this diocese, said the obligation taken by the Maccabees is so binding that it comes in conflict with the duty of the communicant's loyalty to the church, and all Catholics must withdraw from the society. Mr. Meredith says that so far as concerning the present Catholic membership the new order would have no effect. In some of the local tents the priests had forbidden Catholics to remain in the order, but the members informed the clergymen that there was nothing which was inconsistent with their religious views and that they would not leave the order. It is not expected that a dozen members in Indiana will be lost on account of the letter, although the declaration of the archbishop, Mr. Meredith thinks, may deter Catholics from joining.

THE NEW WAR VESSELS.

Favorable Progress in Their Construction Is Shown by a Statement Prepared by Hiebhorn.

Washington, May 10.—Favorable progress in the construction of naval vessels is shown in a statement just prepared by Adm. Hiebhorn, chief of the bureau of construction and repair. The battleships Kearsarge and Kentucky, at Newport News; the protected cruiser Albany, at Armstrongs, England, and the torpedo boat Goldsborough, building by AMF & Zwickler, are practically completed, less than one per cent. work remaining to be done. Other vessels nearing completion are the battleships Alabama, at Philadelphia, 95 per cent.; battleship Wisconsin, at San Francisco, 91 per cent.; the torpedo boat destroyers Lawrence and Macdonough, at Foulke River, Mass., 90 per cent.

BRITISH SHIP WRECKED.

Five of Her Crew Saved, But It Is Feared 22 Others, Including the Captain, Have Perished.

Melbourne, May 10.—The British ship Sierra Nevada, Capt. Scott, from Liverpool January 16, for this port, was totally wrecked outside the Heads. Five of her crew were saved, but it is believed that 22 others including the captain, perished. The Sierra Nevada was an iron vessel, 233 feet long, 37.7 feet beam and 23.6 feet deep of hold. She registered 1,400 tons and was built in 1877 at Southampton. She was owned by Thomas, Anderson & Co., of Liverpool.

Lizzie Van Lew Dead.

Richmond, Va., May 10.—Miss Lizzie Van Lew, who rendered such conspicuous service to the federal cause during the war, is dead. For the aid she gave Gen. Grant, the latter, when elected president, made Miss Van Lew the postmistress of Richmond. This lady gave substantial aid to the officers who effected their escape from Libby prison just before the close of the war.

Colombian Revolution Extended.

Washington, May 10.—It seems impossible to get cable reports as to the actual state of affairs in that part of Colombia affected by the revolution, but the last mail advices received here make it evident that the revolution has extended far beyond its original limits and is now a very serious menace to the existence of the present Colombian government.

Wants Annual Reports.

Washington, May 10.—Senator Elihu has introduced a bill amending the inter-state commerce act so as to require the commission to report to congress annually on the number of complaints made against railroads, the cases of unjust discrimination and of exorbitant rates, the appeals to the court and the final determination of the several cases.

Plague Rapidly Spreading.

A Pretty Old Horse.

Rev. Frank Gussaus at one time believed that his parish work would be made much easier for him if he possessed a horse on which to ride from place to place, as he determined to purchase one. Now what Rev. Mr. Gussaus didn't know about a horse would fill a large volume, and he might have been expected to fall into the hands of the phonetics. He saw nothing wrong with the horse, however. He had told the owner whom he bought it that he was not used to riding, and so wanted a quiet animal, and in this respect, at least, the horse fully came up to the requirements. One day Rev. Mr. Gussaus' rather came to visit him, and the horse was proudly shown to him. Gussaus' pere looked the horse over carefully. "Well, Frank," he said, at last, "he isn't much of a horse, is he?"

"No," answered Frank, "but then, you know, father, the Saviour rode a horse that was anything but handsome."

"Yes, I've heard that," said the old man, reflectively. "Frank," he added, suddenly, "you've got a treasure. I'll bet this is the same horse."—Cincinnati Enquirer.

SHARP ENGAGEMENT.

Hutton's Forces Met the Boers and Were Driven Across the River.

Boer Sources Report That in a Skirmish Outside of Mafeking Col. Baden-Powell Was Wounded—Other News From the Front.

London, May 10.—Gen. Hutton's mounted infantry brigade, including the Canadians, with a part of Gen. French's cavalry, crossed the Zand river Tuesday and began to work its way cautiously along the railway westward in the track of the retreating Boers. About 2,000 horsemen were probably engaged in this advance. Gen. Hutton, before he was joined by a part of Gen. French's forces, had a sharp fight. This was on Wednesday, when he reached the river and saw the Boer convoys on the other side and pressed forward, intending to cross and capture them. The Boers, however, opened fire with heavy guns, and Hutton's forces were driven back and sought to envelop the British. Gen. Hutton fell back and the British cavalry reinforced. During the night the Boers retreated, and further contesting the crossing. Lord Roberts, according to one correspondent, left Mafeking Tuesday to command one of the Hamilton's, 15 miles distant. The Boer attack on Gen. Hutton does not indicate any such military conditions as have been supposed to exist among them. Nevertheless the British advance rolls on Sunday. Gen. Broadwood and Gen. Hamilton have penetrated 15 miles beyond Winburg.

According to Boer advices, sharp skirmishes are of daily occurrence, and there was a brisk rifle engagement outside Winburg on Saturday. Boer sources comes also the report that in a skirmish outside Mafeking, May 5, Col. Baden-Powell was severely wounded.

The Transvaal volksraad adopted resolutions on Tuesday expressing indignation at the British for not conducting the war in a civilized manner, for killing wounded Boers with knives, for using armed kafters under British officers and for ill treating prisoners.

President Kruger, after his formal speech on Monday, said the British were prepared for war in 1896, as documents which the burghers had captured showed, but that the Transvaal, in a bloodless, provided a seven years' franchise and then a five years' franchise.

Great Britain still demanded," he declared, "and the republic at length accepted the challenge. Even should the British enter the Transvaal and take Pretoria, the Boers will still remain a free people. Our trust is in God, and we may be confident that he will defeat the most powerful general."

Admiral Hay, United States consul at Pretoria, was present when this speech was delivered. The read conference in secret session.

Smithfield, May 8.—It is reported that the federalists are quitting Zand river and it is variously stated that they are retreating towards the Vaal and are taking up their position at Kroonstad, south of Kroonstad.

Large numbers of burghers have come in and delivered their horses and rifles to the British. They affirm that there is a bitter quarrel between the free states and the Transvaal, which is likely to end in the speedy surrender of the former. Gen. French has arrived here.

London, May 10.—Although the British expected considerable opposition at the different drifts of the Zand river, the latest advices from Mafeking, Orange Free State, indicate that the federalists are not yet ready to make a determined attack to stem Lord Roberts' advance. The latter's front indeed, is so wide and overstretching in numbers that it is difficult to see how the Boers can help being crushed out of Virginia siding, as they were out of Smithfield, even if they elected to give battle.

The same considerations would probably affect the situation at Komatipoort, hence the belief that little real opposition will be encountered west of the Vaal.

The repairs to the bridges over the Vaal river and the Vaal are expected to retard the general march from Smithfield and Fourteen Streams for four or five days, when Gen. Buller will also be ready. The general idea is that Lord Roberts will direct his right on Harrismith in order to get to touch with the Natal army coming through VanRenssen's pass. A dispatch from Maseru, dated May 8, says the Boers have deserted both Ladybrand and Ficksburg in a panic following owing to reports that the British occupied Zenikal, thus threatening their retreat to the Transvaal.

London, May 10.—It is announced by a special dispatch from Lourenzo Marques that the government of the Orange Free State has been moved from Kroonstad to Heilbron.

Plot to Assassinate Lord Roberts. London, May 9.—The Standard says that information has been officially received of a plot to assassinate Lord Roberts; that the latter has been warned, and that telegrams are passing between the Cape authorities and the subject.

Col. Walter Points Dead. Washington, W. Va., May 9.—Col. Walter Points, aged 64, a noted soldier in the Confederate army, died here. He came to this city from Richmond 20 years ago.

PRICE OF PRINTING PAPER.

The House Ways and Means Committee Takes Up the Subject and Will Make an Inquiry.

Washington, May 10.—The petition of newspaper publishers relative to the price of printing paper was presented to the ways and means committee, and Mr. Newlands, of Nevada, proposed an inquiry as follows:

"Whereas, Complaint is made that the price of paper in the United States within a recent period has been nearly doubled.

"Whereas, The Association of American Newspapers has appealed to the congress of the United States for relief, claiming that the increase in price has been occasioned by a combination of the various paper mills and pulp factories of the country.

"Resolved, That the committee on ways and means fix the last Wednesday of May, 1900, for the hearing of such complaint. And meanwhile the secretary of the committee is directed to give notice to such Association of American Newspapers and to the various paper companies and pulp companies of such hearing, and the secretary of the committee he directed to call on such paper companies and pulp companies for the total amount paid during the calendar year ending December 31, 1899, by such companies for interest on bonds, dividends on stock, taxes and wages to employees, the rate paid for wages to be classified according to the amount paid, and also statements showing the total receipts for paper sold and the expenses of operating during the year."

After some discussion the matter was referred to the sub-committee on customs, consisting of Messrs. Payne, Dabell, Hopkins, Grosvenor, Russell, Richardson and Robertson.

WILL KNEEL NO MORE.

The Attitude of Prayer is Optional With the Members of the Methodist Episcopal Church.

Chicago, May 10.—Kneeling as the attitude in prayer has ceased to be an exaction in the Methodist church. The Book of Discipline recognizes the kneeling of the knee, but the city churches have gradually been drifting into the more unconventional bowing of the head. The custom of Wesley prevails for the most part only in the country. Delegate Thaddeus, of Nebraska, is a believer in the devout kneeling form, and sought to correct the tendency of the latter-day Methodists in departing from the ancient custom by introducing a resolution in the general conference emphasizing the direction in the discipline. The conference refused to declare "We are as much as ever in favor of observing" the kneeling attitude.

The effective argument was presented by a city minister who said: "We would have to rebuild our churches. Few spaces is too contracted to permit of kneeling."

The Nebraska preacher rose to urge the adoption of his views, but the conference clamored for a vote, and the more easy leaning of the body toward the back of the pew in front was approved.

LUMBER TOWN BURNED.

Only Five Buildings Are Left Standing—An Aged Couple Surrounded by Flames and Perished.

Galeton, Pa., May 10.—The lumber town of Corbett, five miles west of Galeton, on the Buffalo & Susquehanna railroad, was destroyed by a forest fire Wednesday. The town had 500 population. Only five buildings are left standing. A relief train took away one load of people and started to return after the rest. A mile out of Corbett the fires compelled the train to turn back.

George Luke and wife, an aged couple, was surrounded by the fire and burned to death. Many of the women and children who escaped were seriously burned. As there is a large clearing near the town no anxiety is felt for the safety of those left behind.

Richard Yates for Governor.

Peoria, Ill., May 10.—The republican convention Wednesday afternoon nominated Richard Yates, son of "Dick Yates," the famous war governor of Illinois, for governor on the fourth ballot. Mr. Yates at the present time holds an appointment under President McKinley as internal revenue collector of the Springfield district. The following were selected to represent the state at the national convention: Delegates-at-large, Joseph G. Cannon, John J. Brown, Hale Judson, John M. Smyth.

STREET CAR MEN OUT.

Attempts to Run Cars by Non-Unionists Causes Rioting at St. Louis.

Disorders Take Place in Several Different Parts of the City, in Which Shots Are Fired From Revolvers.

St. Louis, May 9.—St. Louis walked Tuesday morning. At 1:30 a. m. the union employees of the St. Louis Transit Co., which owns all but one line of St. Louis electric roads (the Suburban railway), decided unanimously to strike because of the company's refusal to grant the agreement presented by the union several days ago. The tie-up is complete on the transit system. The company Monday posted a new scale of wages, effective June 1, providing pay for conductors and motormen of 20 cents per hour, gripmen on cable division 22 cents an hour, new men 18 cents an hour for the first six months and 20 cents after one year.

A crowd of over 3,000 surrounded a Suburban car at Sixth and Locust streets at 9 a. m. and threatened bodily harm to the motorman and conductor. After they had smashed every window in the car the crew became frightened, and leaving the car, joined the strikers. They were hoisted on the shoulders of a dozen stalwart men and carried for blocks, surrounded by a cheering throng.

A Park avenue car was considerably damaged at Eighteenth street and Washington avenue. A large crowd of men and boys was congregated there, and as the car was within distance they bombarded it with stones, regardless of the fact that several women were inside it. The crew on the car stuck to their posts, although the stones flew thick around them. The company, when it found the cars could not be operated, ordered them back to the sheds.

Vehicles of all sorts are pressed into service by the citizens of the town in getting to and from business.

St. Louis, May 10.—Chief of Police Campbell Wednesday announced that the police department and the street railway lines had come to an agreement, whereby no attempts were to be made to run cars Wednesday.

At 9:15 a. m. a United States mail car had been run to Baden, on North Broadway, and there deserted. A crowd had gathered, but no violence is reported.

In consequence of the determination not to attempt the running of cars, it is not expected that many disturbances will occur during the day.

Tuesday night the Carpenters' union sustained the strikers, and resolved to fine its members \$2.50 for each offense if caught riding on the cars run by non-union men.

St. Louis, May 10.—The strike of the street railway employees is becoming quite serious. A dynamite cartridge exploded under a car on the Meramec Highlands division of the Suburban line with great force at midnight. The force of the explosion splintered the truck, broke off a section of one wheel and cracked the axle. The car was occupied by a dozen workmen of the company. Succeeding the explosion a number of shots were fired in quick succession, but the persons who did the firing were not seen owing to the darkness, and nobody on the car was struck.

At 9 o'clock as a Suburban car, en route to the company's sheds in the western part of the city, was passing the Baptist sanitarium, a number of men gathered in the grounds of the institution threw rocks at the car. Some one on the car fired a shot into the crowd, the bullet finding lodgment in the breast of Frank Liebrecht. The wounded man attempted to enter the sanitarium, but fell dead on reaching the door.

One story is that a police officer on the car fired the shot. Dan Donovan was placed under arrest by the police, charged with firing the fatal bullet. Donovan is employed in a minor capacity by the railway company.

Debate on Party Lines.

Washington, May 9.—The house considered the contested election case of Pearson vs. Crawford, of the Ninth North Carolina district. The report of the majority was against the sitting member, a democrat, on the general ground that Mr. Pearson's election was prevented by fraud, intimidation, bribery and bloodshed. The minority deny all the allegations of the majority. The debate was on party lines.

Prominent G. A. R. Man Dead.

He was consul at Odessa, Russia, for 12 years, being appointed to that position by President Grant. He was postmaster of Memphis under Harrison's administration. During the civil war Col. Dyer commanded a Missouri regiment in the union army. A widow and five children survive Col. Dyer, who was a native of Cincinnati.

Rev. Chas. M. Sheldon's Liberality.

Topeka, Kan., May 9.—Rev. Charles M. Sheldon has offered to give the city \$1,000 on condition that the city appropriate a like sum for the purpose of erecting a detention hospital to be operated in connection with the city jail.

Political Topics.

The report is confirmed that Gen. Joseph A. Wheeler will not be a candidate for the seat in Congress made vacant by his resignation.

The Republicans of Illinois in convention at Peoria Wednesday nominated a full State ticket headed by Richard Yates for Governor. The delegates-at-large to the National Convention are Joseph G. Cannon, John J. Brown, Hale Jadson and John M. Smyth.

Probably no man in Congress has changed his convictions more easily or often than Joe Sibley, who is now in Congress, elected as a Democrat. He was strongly favored by many as the Vice Presidential candidate on the ticket with Bryan in 1896. He was nominated for Congress by the Prohibitionists, then by the Populists, next by the Democrats, and now he is the candidate of the Republicans. If another new party should spring up though in a few months, Joe can be depended on to join it. They can't lose him.

The Democratic Opportunity.

The opportunity of the time honored Democratic party is in sight. That party has always claimed to be the party of the Constitution. Its founder wrote the Declaration of Independence and the principles of the Declaration of Independence are attacked by the McKinley administration. A great Democrat formulated the Constitution, and the Constitution is arrogantly limited or set aside. The question now is whether there is enough of wisdom and patriotism in the party to measure up to this great occasion and rescue the government from those who would sap the foundation upon which the great fabric rests. That is the question.—Baltimore Sun.

The London wool sales opened Tuesday at a decline of five to ten per cent. from close of last season.

The Danville Advocate says that Anderson & Spillman have bought 2,500 acres of growing wheat at sixty cents per bushel.

Lieut. Gibson won the Clarke Stake yesterday at Louisville, Florizor second. Only two starters, Thrive and Kentucky Farmer being scratched.

At the sale of Hereford cattle held at Moweaqua, Ill., by Tom C. Pointing & Son, 32 females averaged \$269.70 and 29 bulls \$213.50.

The 1900 peach crop will be larger than the average if nothing comes along to spoil the present splendid prospect. From Michigan, Delaware, New Jersey, Georgia and Texas reports indicate that the crop will be record-breaking.

The weekly crop bulletin states that wheat is still in fine condition. Corn is coming up slowly, and has not advanced much except in the west portion. Tobacco plants have not done well, and in some localities have been attacked by insects. Potato bugs are numerous. Oats are looking poorly and will make only a light crop in many localities. Gardens were at a standstill during the week. Grass and clover made very little progress in the central and eastern portions, but did better in the western. The fruit crop bids fair for a good yield. Strawberries are expected to be ready for market by the 12th to 15th.

A Painful Memory.

A lady who lives on Morgan street took her 5-year-old son to a photographer's to have his picture taken. She was anxious to secure a good likeness at this particular sitting because she wished to distribute the pictures among some friends who were then her guests.

The child's idea of the affair, however, did not apparently harmonize with that of his mother, for when the man with the camera began to adjust the lens and direct it toward little Edward that young person set up what was unquestionably a howl.

In vain did the mother call into use her utmost forensic abilities. Edward did not want his picture taken.

"Why, my child," she said soothingly, "the gentleman won't hurt you. Just smile and keep still a moment, and it will be all over before you know it."

"Yes, I know, mamma," whimpered the youth, with the tears running down his cheeks, "but that's what you told me at the dentist's."—St. Louis Post-Dispatch.

A Model of Joy.

The artist placed the easel in front of his model and worked away rapidly on his allegorical picture of "Joy."

"Uncle Ephraim," he said, "if this picture is a success I shall give you, besides the half dollar I promised, the finest and plumpest young pullet in the market."

A grin overspread the shiny face of Uncle Ephraim, but the artist was disappointed. The result was not quite what he had expected.

An inspiration came to his aid.

"Down on South Water street this morning," he went on, "I saw the fattest possum that was ever brought to this town. I am going to get it for you."

"Golly!"

And the picture was a magnificent success.—Chicago Tribune.

Lady Churchill's Patriotic Retort.

Lady Churchill has inherited the wit of her father, as she demonstrated upon one occasion to an eminent British politician. He was somewhat annoyed at the campaign she had made and said:

"I really don't understand, Lady Churchill, why or how it is that American ladies refuse to enter political life in their own country, but overwhelm us here in England."

"That is because you have never traveled in the United States. The men there are so intelligent and patriotic that they do not require the services of our sex as an educating force."—Saturday Evening Post.

BURIED WEALTH.

Valuable Lead and Zinc Veins in Bourbon To Be Developed.

Messrs. O. H. Winegar, E. E. Posey and S. Short, of St. Louis, who represent St. Louis capitalists worth millions of dollars, and Mr. W. D. Rippetoe, of Virginia, believe that there is untold wealth lying undeveloped near Paris in the veins of lead and zinc. This opinion was held for thirty-five years by Dr. Wash Fithian, who sunk the shaft in East Paris to work a lead mine. This work was discontinued because at that time there was no known process of separating the lead from the zinc.

Mr. Rippetoe, who came to Paris in August for a visit to his nephew, R. B. Rippetoe, of the L. & N., saw evidence of the existence of lead and zinc while out for a walk one day. Being a geologist and assayer, he made an investigation and an assay of specimens of the ore showed evidence of deposits of lead and zinc, amply sufficient for manufacturing purposes. Mr. Rippetoe and Dr. Fithian succeeded in interesting the St. Louis capitalists, which resulted in the visit of their representatives.

The St. Louis gentlemen were so well satisfied with the assay and the prospects that over one thousand acres of land were leased and options were secured on over 1,300 acres. They also arranged for the erection of an educational furnace of one-hundred ton capacity to test and work the ore.

A ten-ton furnace would have done the work satisfactorily, but the capitalists had confidence enough in the ore to contract for the one-hundred ton furnace. This furnace will be erected on the Isgrig property in East Paris, which is a further and fitting compliment to Dr. Fithian, that being the site of his start in the work many years ago.

Work will be commenced at once on this furnace, which Mr. Rippetoe says will be completed within sixty days, and will give daily employment to five or six hundred men, besides a corps of from twenty to thirty experts in the manufacture of metal wares.

The gentlemen interested in the enterprise are backed by ample capital. It will readily be seen that it will be a vast benefit of Paris. The operation of a plant employing a large number of men will cost immense sums of money, the larger part of which will be spent in Paris. The men will, of course, move their families to Paris, which should add largely to the population of the city.

It is hoped that Dr. Fithian, Mr. Rippetoe and the capitalists will be amply repaid for their interest in the enterprise and their faith in it.

Dr. Fithian yesterday showed THE NEWS a copy of a lease of some of the property, taken out more than thirty years ago.

A Boon to Business and Professional Men.

The system of physical training, as taught by Prof. C. Rucker Adams, who is at present organizing a class among our citizens, affords the best possible advantages of scientific bodily exercise. From all over the country come words of praise from pupils who have enjoyed this special course. Large and enthusiastic classes at Cleveland, Chicago, Richmond and Winchester attest to the merits of this splendid work.

We trust that many of our citizens will adopt this system and there is no doubt but what each will be as appreciative of this invaluable new course of exercises as others who have investigated the same. Classes for ladies and children conducted by Mrs. Adams will also be organized. The professor will call and explain his work to you.

Let every one desiring the best physical car join this class. 1t

OBITUARY.

Mrs. Annie Cary Ward Clay, aged about twenty-eight, died Wednesday afternoon at the home of her husband, Ezekiel F. Clay, Jr. The deceased was one of the most beloved young women in Bourbon and her demise has brought sorrow to every person of her acquaintance. She was a daughter of the late Judge J. Q. Ward, and was one of the loveliest young ladies in Kentucky. She possessed a beautiful Christian character, and her personal beauty was enhanced by her refinement, gentleness and amiability. She was a devoted member of the Second Presbyterian Church, of this city, and her faith was a leading trait of her character. The deceased is survived by her husband and a babe several days old, besides her mother, Mrs. Mary E. Ward, and brothers, Messrs. J. Miller Ward and J. Q. Ward, Jr. The funeral services will be held at the residence this morning at ten o'clock by her pastor, Rev. Dr. E. H. Rutherford. Burial at the Paris cemetery. The pall-bearers will be Messrs. Woodford Clay, Brutus Clay, Buckner Clay, Cary Ward, Joe Ward, Catesby Woodford. The tenderest sympathy of a legion of friends goes out to the sorrowing relatives in their bereavement.

I wish to inform the public that I will continue making bread, and will have a wagon running every day. Look out for it. Any patronage from Mr. Rion's friends will be gratefully received by Mrs. J. M. Rion.

Removed to Georgetown.

Tuesday afternoon Caleb Powers, John Davis, Henry E. Youtsey and "Tallow Dick" Combs were transferred from Frankfort to the jail at Georgetown, where they were placed under a guard of deputies. On the train Caleb Powers made the statement that even should the Supreme Court decide that Taylor is Governor he will not attempt to use the pardon issued him by Taylor when he was about to flee, but will stand his trial.

It is said that the attorneys for the prosecution have decided to elect to try the indictment against Youtsey first among the cases set for trial July 5. It is believed Youtsey now realizes that he has been deserted by Taylor and Finley and other leaders and that he will tell all he knows when he goes on the stand. If he does tell it is the opinion at Frankfort the biggest sensation of the trial will be developed.

Mrs. Youtsey is at Georgetown, where she will remain the guest of friends till the trial is over.

The Kentuckians Won.

THE Inter-state tournament between the Kentucky and Ohio teams at Cincinnati, Monday, was won by the Kentuckians, by a score of 176 to 156. Another match is being arranged for an early date, to be shot at Louisville.

JUVENILE APPAREL.

Our Boys' Clothing Department has ever been the most interesting place in town for parents and boys. Our efforts in the preparation of our stock for the forthcoming season have been crowned with unqualified success. Good taste, exclusive style, snap and serviceability, make every garment in our juvenile department—from the beautiful, fancy suits for the little boys of 3 to 8 years of age, to the tasteful patterns in Cheviots, Cassimeres, Tweeds and Worsted for the big boys and young men, aged 14 to 19 years.

THERE ISN'T A GARMENT TO WHICH YOU CAN TAKE THE SLIGHTEST EXCEPTION

either in style, quality or price. The question of price has been settled, we believe, to your satisfaction, long ago. Nothing that we offer can be sold, quality considered, as cheaply by any other house in town. Bring your boys, big and little. A fine line of wash suits.

If you cannot read this small print at a distance of 14 inches your eyesight is failing and should have immediate attention:

Imperial spectacles and eyeglasses have perfect lenses, always perfectly centered and made of purest material, set in frames of the highest elasticity and consequently of greatest durability, united with the utmost lightness and elegance. When both frames and lenses are scientifically fitted by Dr. C. H. Bowen's system they always give satisfaction for they are perfect. Never buy cheap spectacles, nor of men who do not know how to fit them. You will get poorly adjusted spectacles, or poor, imperfect lenses, and are better off without any glasses than with either of these defects. Buy Imperial spectacles of a reliable, skillful dealer, and they will last longer without change and be cheapest in the end.

We have engaged the services of Dr. C. H. Bowen who will visit our store on the second and last Thursdays of each month and invite all to call and have their eyes examined, for which there is no charge. Satisfaction guaranteed or money refunded.

Next visit—Thursday, May 31, 1900. Hello, 170.

IN A BLAZE OF GLORY.

The Three Days' Ovation Which the Memphis People Tendered Adm. Dewey Was So Ended.

Memphis, Tenn., May 9.—Two brilliant receptions last night, one at the residence of Gen. Luke E. Wright and the other at the Peabody hotel, closed the list of entertainments which were arranged by the Memphis people for the delectation of Adm. and Mrs. Dewey, and the three days' ovation which the city and the surrounding country were proud to tender their distinguished guests went out with a blaze of glory.

At the residence of Gen. Luke E. Wright the first reception was given from 8 until 9 o'clock by the Oliver Perry Chapter of Daughters of the American Revolution.

The Peabody hotel, where the admiral's last public appearance was made, was a scene of patriotic grandeur, flags and bunting flying from every available space. Hundreds of people were in waiting in the large parlors, and a great hurrah went up when the admiral entered the rooms. For two hours Adm. and Mrs. Dewey received citizens and visitors of Memphis, shaking hands with all who passed before him.

MORE CADETS NEEDED.

A Clause in the Pending Army Bill Provides for the Appointment of 100 at Large.

Washington, May 9.—An importance scarcely second to that of the increase of artillery is attached by the secretary of war to the clause in the pending army bill providing for the appointment by the president of 100 cadets at large to the military academy at West Point. This year's class at the academy graduates only 54 to supply 139 vacancies in the regular establishment, and after the enlisted men are found to increase the available worthy material perhaps to eight there will still remain at least 50 vacancies in the grade of second lieutenant. The next class at the academy is now only about 75 strong, and will graduate 60. The vacancies will probably exceed 150, and four years from now the vacancies will amount to 250, with no increase in the properly qualified graduates to fill them.

DEVASTATED THE LAND.

Millions of Yellow and Green Locusts Swooped Down on the District and Ate Everything Green.

Calamazoo, Mich., May 9.—A report came from Troy, Berrien county, that millions of locusts alighted in that section Sunday and devastated the land of all vegetation. The insects were yellow and green, with long legs and big heads. The insects pecked everything they came in contact with. Animals in the field stood with lowered heads taking the storm upon their backs and flanks. In two minutes the insects had so peppered a vast area that its color and character were entirely altered. In an incredibly short time the insects had eaten up every green thing, and after the grass and leaves were devoured in their hunger they ate the bark of shrubs and trees. When they arose from the soil or from any clump of trees the place they quitted had a barren and wintry aspect.

EXPENDED VAST AMOUNTS.

Detailed Statement Sent to the Senate of the Cost of the Paris Exposition Commission.

Washington, May 9.—The detailed statement sent to the senate for the cost of the Paris exposition commission from the date of its organization to December 31, 1899, shows that the total amount paid for salaries was \$107,768, and for traveling expenses \$54,297.

There are a number of items charged in lump, as, for instance, furniture and office incidentals, \$10,000; newspapers, press clippings, photographs, messenger service, cab hire and express and freight charges, \$10,000; temporary services of draftsmen, \$10,477. The commissioner general, Ferdinand W. Peck, has received \$11,000 as salary and \$3,724 as traveling expenses, a total of \$14,724.

The Fight Over Bill.

Washington, May 9.—In view of the recent eight hour movement throughout the country, the report made to the house of representatives by Chairman Gardner of the committee on labor, on the Gardner eight hour bill and the general subject of eight hour legislation, has a timely interest. The bill requires a clause in all government contracts that the labor under the contract shall not exceed eight hours daily.

Big Crowd From Huntsville.

Huntsville, Ala., May 9.—It is likely that the greatest delegation of Confederate veterans that ever went from Huntsville to a reunion will go to Louisville in June. Egbert Jones camp is making great preparations for the trip. About \$200 has been raised to pay the expenses of members of the camp who are unable to pay their own expenses.

Sharkey Was in Two Rounds.

Fall-ralls, Chicago, May 9.—Tom Sharkey at Tattersalls knocked out Joe Goyenski, of California, in two rounds. The fighting was of the hurricane order, both men landing repeatedly, but Sharkey had the fight well in hand throughout.

Bingham Election Ticket.

Birmingham, Ala., May 9.—The Birmingham faction of the republican party, through its state executive committee, nominated a state ticket to be voted for at the August election headed by Chas. P. Lane for governor.

HEAVY EMBEZZLEMENT.

C. F. W. Neely Is Charged With Appropriating \$36,000 of United States Funds at Havana.

Washington, May 9.—The arrest of C. F. W. Neely at Rochester, N. Y., Saturday and his arraignment in New York Monday, charged with embezzling \$36,000 of United States funds from the post office in Havana, caused some surprise at the post office department here, but not at the war department, which had ordered his arrest. Mr. Neely lived at Manicé, Ind., before he was sent to Cuba as a postal clerk when the United States took possession and assumed direction of government there. First Assistant General Heath knew Neely as a fellow townsman. The island is under the control of the war department and Maj. Rathbone, the director of posts, was appointed by the president and given discretion in appointing his assistants and clerks.

Washington, May 9.—It is said the shortage in the accounts of Charles F. Neely, of Manicé, Ind., treasurer of the post office department in Cuba, may amount to \$100,000. Few facts on which to base definite figures are in the possession of the officials here, but it seems evident that the first estimated of \$36,000 will be largely exceeded. Government officials are making a rigid examination.

Neely will probably fight extradition. There is some discussion as to the law under which he can be tried. The laws of the United States do not extend over Cuba. Neither is there any extradition between the United States and Cuba. If Neely is taken to Cuba and tried under Spanish laws, his lawyer could plead that, being an American citizen, Neely was not amenable to trial under Spanish laws.

The only matter of interest which came before Tuesday's cabinet meeting was the alleged heavy shortage in the accounts of Charles F. Neely, formerly treasurer of the post office department of Cuba. Neely has been arrested in Rochester, N. Y., and the question arose as to whether the United States or Cuba was responsible for the amount of defalcation. It seemed to be the opinion of all the members present that as Neely was appointed by the United States and that in administering the affairs of the island this government is acting, in a sense, as a trustee, it therefore is responsible for the shortage, and can proceed against Neely's bondsmen for the amount involved. It was practically settled, too, that Neely would be taken back to Havana for trial before a civil tribunal. It is expected that the prisoner's counsel will contest any effort to return him to Havana, but it is the opinion of the attorney general that it can and should be done.

IMPORTANT CAPTURE.

Gen. MacArthur Confirms the Capture of Gen. Garcia—Three Americans Killed at Barotac.

Washington, May 9.—The war department has received the following cablegrams from Gen. MacArthur: "Manila, May 8.—Gen. Panfilo Garcia, prominent insurgent officer Northern province, captured yesterday with some valuable documents, by Finston's troops. Regard capture important."

(Signed) "MacArthur." Manila, May 9.—A force of rebels, about 200, attacked about 20 men of Co. I of the 4th regiment, stationed at Barotac, Iloilo province, on the island of Panay. Three of the Americans were killed and seven were wounded.

CUBAN EDITOR KILLED.

He Was an Active Politician and His Paper Had Recently Been Seized by American Officials.

Guantanamo, Province of Santiago de Cuba, May 8.—Senor Alberto, editor of the Don Caridades, was shot and instantly killed by an unknown assassin at the theater Sunday night.

Alberti was an active politician and his paper recently has been criticizing the action of American officials, particularly the election orders. Hidalgo, who killed Capt. Smith, collector of this port, in January was editor of the Don Caridades.

Alberti had received threatening letters, which he ridiculed in his paper.

Increased Pension Fund.

Washington, May 9.—From \$2,000,000 to \$3,000,000 a year is the amount Commissioner of Pensions Evans roughly estimates will be added to the pension expenditures of the government by the action of the house of representatives in passing the bill which has already passed the senate amending the dependent pension law of 1890.

Four Farmers Drowned.

Topeka, Kan., May 9.—News has just reached here of the drowning in Wakarusa creek late Saturday afternoon of Frank and Sherman Cox, brothers, and William Whitelaw, three prominent young farmers of this county. They were fishing when the boat upset.

Quite Quite Satisfactory.

Washington, May 9.—The steamer Quito, which has been secured by the navy department to convey to India the supply of food collected in this country, has been thoroughly inspected and found satisfactory in every respect.

Wheeler Not a Candidate.

Huntsville, Ala., May 9.—A close friend of Gen. Jos. Wheeler states that Gen. Wheeler has announced positively that he will not be a candidate for the position in congress made vacant by his resignation.

DR. HARTMAN'S ADVICE

Is Sought by Female Sufferers From Ocean to Ocean.

Mrs. F. W. Goulier, 1306 Thane, Rock Island, Ill., writes: "I was afflicted for five or six years with curable difficulties and was growing worse all the time. I began taking your Peruna with a marked improvement from the first. Independent of curing the Peruna has greatly improved my general health."

"Every bottle of Peruna is worth its weight in gold; especially to me, for I owe my present good health to Peruna."

All over the country there are women who have been invalids for many years, suffering with female derangements which the family doctor cannot cure.

What a boon to such women is Dr. Hartman's free advice! So famous has his skill made him that hardly a hamlet or town in the country but knows his name. He cures tens of thousands, and he offers to every woman who will write to him her symptoms and a history of her trouble, free advice and treatment.

The medicines he prescribes can be obtained at any drug store, and the cost is within the reach of any woman. He describes minutely and carefully just what she shall do and get to make a healthy, robust woman of herself.

The Doctor has written a book especially for this class of women, entitled "Health and Beauty." This book contains many facts of interest to women, and will be sent free to any address by Dr. Hartman, Columbus, O.

DOESN'T KNOW RIGHT HAND.

Some Women, Says This Account, Find It Difficult to Distinguish Right from Left.

In some of the little things of life women are absurdly ignorant, says the Chicago Chronicle.

"I saw by a paper last week that a colored woman was excluded from testifying in court because she didn't know her right hand from her left, and was, therefore, esteemed too ignorant for her evidence to be of any value," said an observant Chicago man the other day. "Now, do you know I don't believe one woman out of six knows her right hand from her left without stopping to consider the matter."

"I was standing in the foyer of a theater the other day at a matinee watching the audience, mostly feminine, as it passed in. Well, each maid handed her check to the usher and he called out: 'First door to the right,' or 'Second door to the left,' as the case might be. With hardly an exception those girls turned in the wrong direction; then they'd pause to consider, exclaim: 'We're going the wrong way,' and skurry back again."

"This happened so often that I spoke to the usher about it."

"They always do it," he replied, laconically. "I usually point so they'll know the way, but I've neglected to do that to-day. They're all right if they stop to think, but they never do think."

"I myself know an intelligent young woman who has to make a little motion as if she were writing with both hands before she can determine the right one, and she declares that all her acquaintances are affected in like manner, so, perhaps, this is a general feminine failing, and the colored witness was unjustly excluded."

AMERICAN DUEL IN GERMANY.

A So-Called Affair of Honor Between Heidelberg Students Is Fatal.

During my residence at Heidelberg a lamentable and terrible affair took place that threw a profound gloom over the university and the entire town, says a writer in Science. Two German students, having quarreled, decided the earth was not large enough for both of them to live in, and resorted to the diabolical practice called the "American duel." In a darkened room the two young men drew lots, having sworn that he who drew the black ball would commit suicide. The unhappy loser went to his room and discharged a bullet into his breast, but missed his heart, and lingered for several days on his deathbed. His parents were summoned by telegraph and besought him on their knees to disclose the name of his antagonist, but he steadfastly refused and died with the secret locked in his breast.

The students not only excused his conduct, but praised his courage, and when his remains were taken to the railway station to be transported to a distant city they accompanied the funeral cortege with torches and music. The students claimed he was not a suicide, for he was killed in an honorable duel, and they maintained that his opponent was not accessory to his death, because he shot himself. I had ready arguments with them and never could convince them of their extraordinary tergiversation.

Mrs. Duval—The new tenants next door are not a bit neighborly. Mr. Hunt—No; I notice they keep their cupboards piano and almost constantly.—Philadelphia North American.

FIFTY-SIXTH CONGRESS.

Summary of Leading Events.

Washington, May 3.—Senate—The army appropriation bill was passed without division. The day closed with the passage of a number of private pension bills, including bills to pension Mrs. Julia May, Henry, widow of the late Gen. Guy V. Henry; Gen. James Longstreet; Mrs. Margaret M. Badger, widow of the late Commodore Badger, and Mrs. Harriet Gridley, widow of the late Capt. Gridley, of the navy.

House—The "free home" bill, which has been pending before congress for a number of years, was passed. It provides that the government shall issue patents to actual, bona fide settlers on agricultural lands of Indian reservations opened to settlement. The remainder of the day was devoted to the sundry civil appropriation bill, the last but one of the great supply bills.

Washington, May 4.—Senate—The bill reorganizing the army was passed. It increases the rank of Gen. Miles to lieutenant general and Gen. Crobin to major general. The reorganization of the artillery is discontinued and 126 batteries of coast artillery and 18 batteries of field artillery are provided for. The fortification bill, carrying an appropriation of \$7,733,625, was passed, and a bill to pay \$2,998 to Rachel Wilson, of Harrison county, West Virginia, for the services of her father, Col. Benjamin Wilson, in the revolutionary war.

House—Fair progress was made with the sundry civil appropriation bill, 75 of the 132 page being completed.

Washington, May 5.—Senate—Only a short session was held, the entire time being devoted to the confirmation of appointments made by the president.

House—The sundry civil bill was passed. It carries slightly more than \$61,500,000, about \$10,000,000 more than any previous sundry civil bill. The senate amendments to the army appropriation bill were disagreed to and the bill was sent to conference. The fortification appropriation bill was also sent to conference.

Washington, May 7.—Senate—Mr. Teller, in a lengthy speech, urged the senate to adopt his resolution extending sympathy to the Boers, but no vote was taken. The remainder of the day was taken up considering the naval appropriation bill.

House—The bill to amend the general pension laws was passed. It provides for aggregating disabilities under the act of 1890, without regard to service origin, and to increase the net income a widow may have without destroying her right to a pension from \$96 to \$250. The bill to increase the appropriation for the national guard from \$400,000 to \$1,000,000 was also passed.

Washington, May 8.—Senate—The entire session was devoted to the naval appropriation bill, the measure being completed, with the exception of that section relating to armor and armament.

House—Most of the session was devoted to the consideration of private bills recommended from the committee on claims, and ten bills were passed. The most important was one to remit the penalties imposed by the government on the Union iron works, of San Francisco, the builders of the monitor Monterey, for their failure to make contract speed. Unimportant measures occupied the remainder of the session.

Washington, May 9.—Senate—Practically the entire session was devoted to the section of the naval appropriation bill relating to armor and armament. The debate largely hinged on the proposition that the government should erect an armor plant of its own. A joint resolution making the selection of a site and the erection of a bronze statue in Washington, D. C., in honor of the late Henry Wadsworth Longfellow was passed.

House—The entire session was occupied in considering the contested election case of Pearson vs. Crawford, of the Ninth North Carolina district. The report of the majority was against the sitting member, a demonstration on the general ground that Mr. Pearson's election was prevented by fraud, intimidation, bribery and bloodshed. The minority deny all the allegations of the majority. The debate was on party lines.

MASS CONVENTIONS.

The Populist May Hold No More of Them—Opposition to Wharton Barker Steadily Growing.

Cincinnati, May 10.—The populist convention was called to order Wednesday afternoon. Ex-Congressman M. W. Howard, of Alabama, was made temporary chairman. No nominations will be made until Thursday. Up to date about a dozen names have been discussed for the office of president of the United States, but the two likely candidates for contest for first place will be Gen. Wharton Barker, of Philadelphia and ex-Congressman M. W. Howard, of Alabama.

If the plans now on foot go through as anticipated, there will be no more "Pop" conventions held. A plank in the platform of the party provides for direct legislation. This means the voting for candidates the same as nominees are voted for and will be done in the separate states.

Opposition to Wharton Barker was growing steadily and he may be doomed to defeat. Friends of Debs may bolt the convention.

Ignatius Donnelly is still a strong candidate for the second place, but Howard, of Texas, is mentioned.

Fatal Hotel Fire.

Geneseo, N. Y., May 9.—The American hotel here was destroyed by fire Tuesday. After the fire was under control the bodies of Lafayette Curney and Sherman Deborah, of West Sparta, were found on the third floor. It is thought a woman also lost her life, but her identity is unknown and the body has not yet been found. Miss Schreiner, a waitress, said she saw two men run away from the building and almost immediately the fire occurred. The loss is \$15,000.

A BIT OF SPRING.

The Pensive Poet Said the Crocus Is the Rooster of Flowers.

"Do you wish any spring poetry to-day?" inquired a long-haired caller, and the lamplike editor reached for his gun. The caller saw the motion and held up his hand appealingly.

"Shoot if you will this long-haired head, but do not kill the poet dead," he crooned, softly. "Did I understand you to say you would like some spring poetry to-day?" he added, with mild insistence.

"I would like it as well to-day as any day," replied the editor, "but I do not like it any day. There's housecleaning and moving and a superabundance of bile and torpid livers and influenza and enough other things to contend with in the spring, without having any poetry shoved in on us."

"But think of the kind mine is!" insisted the visitor; "listen," and he pulled out a dingy-looking slip of paper and read: "There bursts a crocus from the earth to meet the quivering showers."

And there the crocus presses its plumes, The rooster of the flowers."

"What do you think of that?"

"Who in thunder ever heard of a flower being a rooster?" queried the editor. "The most unlimited poetic license will not permit that sort of a wrench to the imagination."

"Steady, steady my Pegasus," said the visitor, soothingly. "I knew you'd be kicking out of the traces, and I don't blame you, for there is a really startling thought in that suggestion. It is plain enough when you see it."

"Which isn't saying that anybody can ever see it."

"Only the blind will not see. Now observe, please. The crocus is the rooster of the flowers is what I said, didn't I? And I am right, for the rooster is a crow cuss, isn't he? Now, what have you got to say?"

And what the editor said is not fit for publication.—N. Y. Sun.

An Ironical Condolence.

When a man becomes suddenly rich it not infrequently follows that he becomes as suddenly oblivious to his old friends. Thus, a Persian having obtained a lucrative position at court, a friend of his came shortly afterward to congratulate him thereon. The new courtier asked him: "Who are you and why do you come here?" The other coolly replied: "Do you not know me, then? I am your old friend, and am come to condole with you, having heard that you had lately lost your sight."—San Francisco Wave.

Multum in Parvo Prayer.

George's mother insisted upon his repeating the prayer of childhood. He started sleepily, requiring prompting at the beginning of every line. Drowsiness had nearly won the mastery by the time that he had obediently got as far as "my soul to take."

"God bless," prompted his mother. George has a long list of relatives. There was a flutter of his sleep-laden lids as he lumped them all together: "God bless the whole shooting match!" And he was asleep.—Chicago Chronicle.

Few College Students Die.

The death rate in colleges is extremely low. The strict attention to the physique is given as the cause. People outside of colleges, as well, may have health and strength. Hostetter's Stomach Bitters is recommended most highly for preventing as well as curing bodily weakness. It is for the blood, the nerves and all stomach disorders, and its cures of constipation, indigestion, dyspepsia, sluggish liver or weak kidneys, are most remarkable.

Mrs. Slowpay—A girl formerly in your employ answered my advertisement for a maid. Is she honest?

"Why, what do you mean?"

"Well, you see, I have no positive proof of her honesty, but every time I sent her to you with no bill she failed to give me the money."—Chicago Evening News.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BOILS AND CARBUNCLES

These unwelcome visitors usually appear in the spring or summer, when the blood is making an extra effort to free itself from the many impurities that have accumulated during the winter months.

Carbuncles, which are more painful and dangerous, come most frequently on the back of the neck, eating great holes in the flesh, exhaust the strength and often prove fatal. Boils are regarded by some people as blessings, and they patiently and uncomplainingly endure the pain and inconvenience under the mistaken idea that their health is being benefited, that their blood is too thick anyway, and this is Nature's plan of thinning it. The blood is not too rich or too thick, but is diseased—is full of poison—and unless relieved the entire system will suffer. The boil or carbuncle gives warning of serious internal troubles, which are only waiting for a favorable opportunity to develop. Many an old sore, running ulcer, even cancer, is the result of a neglected boil.

Keep the blood pure, and it will keep the skin clear of all the irritating impurities that cause these painful, disfiguring diseases. S. S. S. cures boils and carbuncles easily and permanently by reinforcing, purifying and building up the blood and ridding the system of all accumulated waste matter.

S. S. S. is made of roots and herbs which act directly on the blood, and all poisons, no matter how deep-seated, are soon overcome and driven out by this powerful purely vegetable medicine.

S. S. S. is not a new, untried remedy, but for fifty years has been curing all kinds of blood and skin diseases. It has cured thousands, and will cure you. It is a pleasant tonic as well as a blood purifier—improves the appetite and digestion, builds up your general health and keeps your blood in order. Our physicians have made blood and skin diseases a life study—write them fully about your case, and any information or advice wanted will be cheerfully given. We make no charge whatever for this service. Send for our book on Blood and Skin Diseases—free. Address, The Swift Specific Co., Atlanta, Ga.

The "Pitt" (or "Regent," as it was afterward called) is the most perfect brilliant in existence, and its history is also very remarkable. It is said to have been found by a slave in the Parrot mines in 1701, who to retain his treasure cut a hole in the calf of his leg, in which he concealed it, although it is more probable he secreted it among the bandages. The slave escaped to the coast with his find, where he encountered an English skipper, whom he made his confidant, offering, indeed, to bestow upon him the stone in return for his liberty. The mariner, apparently consenting to the slave's proposal, took him out to sea and when there drowned him, after obtaining possession of the diamond. Disposing of the gem to a diamond merchant for £1,000, it is said the man afterward hanged himself in a fit of remorse.

Mr. Pitt, governor of Fort St. George and great-grandfather of the illustrious William Pitt, became the next possessor of this valuable stone, weighing 410 carats, for £20,000. He sent it to London, where he had it very skillfully cut at a cost of £5,000, the process occupying two years. Pitt appears to have found his diamond no very enviable possession, for, after refuting the calumnies of his enemies, who had charged him with having obtained it by unfair means, he was so haunted by the fear of being robbed that he never slept two nights consecutively under the same roof, never gave notice of his arrival in or departure from town and went about mysteriously disguised. He must necessarily have felt greatly relieved when he parted with the diamond to the Duc d'Orleans, regent during the minority of Louis XV, king of France, in 1717 for the sum of £135,000.—Chambers' Journal.

Question Answered

Yes August Flower still has the largest sale of any medicine in the civilized world. Your mothers, and grandmothers, never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Sold by dealers in all civilized countries. oct-27-1y

J. C. Kennedy, Roanoke, Tenn., says, "I cannot say too much for DeWitt's Witch Hazel Salve. One box of it cured what the doctors called an incurable ulcer on my jaw." Cures piles and all skin diseases. Look out for worthless imitations. W. T. Brooks.

"I had stomach trouble twenty years and gave up hope of being cured till I began to use Kodol Dyspepsia Cure. It has done me so much good I called it the savior of my life," writes W. R. Wilkerson, Albany, Tenn. It digests what you eat. W. T. Brooks.

The easiest and most effective method of purifying the blood and invigorating the system is to take **DeWitt's Little Early Risers**, the famous little pills for cleansing the liver and bowels. W. T. Brooks.

Many women suffer all sorts of so-called "female weaknesses" just because their kidneys are out of order and they have a right to know **Foley's Kidney Cure** is just what is needed by most ailing women. Clarke & Kenney.

To Asthma Sufferers.

Lawson Elvidge of Barrington, Ill., says he was cured of chronic asthma, a long standing by **Foley's Honey and Tar**. It gives positive relief in all cases of asthma, so this disease, when not completely cured, is robbed of all its terrors by this great remedy. Clarke & Kenney.
